Deaths in South Christian.

Lafayette, April 11.—Died on the 10th inst., Mrs. Julia Purcell, wife of L. J. Purcell, of this place, in the 99th year of her age. She leaves a husband and six children, the youngest of which is a little girl two months old. She had been a member of the Christian church for a number of years, and was a most estimable lady and will be greatly missed by the whole community.

Died of pneumonia this morning at 6 o'clock, Troy Miller, a young farmer of the Bonnetstown neighborhood. He was 25 years old, unmarried, and was an excellent young man of high standing in the community.

Asylum Changes.

The removal to this city last week, of Dr. R. F. Eger, first assistant physician at the Western Asylum, has necessitated some temporary changes at that institution. The third assistant physician, Dr. Stanley, is now acting as first assistant, and Dr. Kortlander, the druggist, is filling Dr. Stanley's place. It is not known who will get Dr. Eger's place. Dr. Eger's retirement was entirely voluntary, as he had assurances that he would be allowed to serve out his term, a year longer. As previously mentioned he has located in this city.

Will Work for Forbes & Bro.

Mr. J. C. Buckner, late steward at the Western Asylum, has connected himself with the establishment of Messrs. Forbes & Bro. as collector and general husher. Mr. Buckner is a gentleman of wide popularity and a business man of fine qualifications and successful experience. He will make the firm a first class man.

A Fine Assesed.

Judge Breathitt tried the case of J. W. Cayce Saturday, charged with an assault on W. S. Hoiles. The fracas was mentioned in Friday's Kentuckian. Mr. Cayce was fined \$5.00 and costs. Dan Hanbery, reported as having been a party to the trouble, had nothing to do with it.

The Baptist Meeting.

Dr. Felix is still preaching two powerful sermons a day at the Baptist church and the crowds at the evening services fill both rooms of the church. On Sunday morning there were three additions to the church. The meeting will continue only a few days longer.

Elkton Gets Dry.

The Elkton people took a vote on the question of "wet or dry" last Thursday and the "dry" won by 77 majority in a total vote of 229. There are several saloons in the place and as soon as their present licenses expire they will quit the business.

Hopkinsville Wins the First Games.

The Hopkinsville base ball club defeated the Russellville nine on the latter's grounds Friday, the score being 9 to 7. Russellville has an excellent team, but our home boys outplayed them at every point and won with ease.

Tramp Gets a Job.

Scott Ewing, a tramp, charged with breach of the peace, was sent to the work house for ten days by Judge Hanbery Saturday. Ewing says it's the first steady job he has had for some months.

"Faded" Five Negroes.

Marshal Slackwell, of Trenton, arrested five negro men one day last week for jumping on moving trains. Judge Graves gave them five days, each, on the rock pile and they were immediately put to pulverizing limestone.

Broke His Arm.

Col. W. T. Finch, a well known and prominent citizen of the Fairview neighborhood, fell and broke his arm one day last week while getting over a fence on his farm.

Soldiers' Remains Removed.

The remains of the soldiers killed during the war and buried near Madisonville, were taken up yesterday and re-interred in Odd Fellows Cemetery in that city.

Postoffice Change Hands.

The postoffice at Sharon Grove, Todd county, changed hands last week. Dr. W. H. Saver resigned and Dr. B. E. Egan was immediately appointed to fill the vacancy.

The Evening News, of Louisville, suspended after running one week.

HE CAN'T CARRY IT.

Dr. Chardy Again Says Carlisle Would Lose
Kentucky.
(Owensboro Messenger.)

The Messenger last night received by mail the following from Congressman Chardy:
WASHINGTON, D. C., April 7, '96.

EDITOR MESSENGER:
I have just received your telegram and sent the following answer:
"I emphatically deny the statement you quote from the Post. Have uniformly said as my opinion that if nominated Carlisle could not carry Kentucky."

I have not seen the Post, but may safely say I have never seen anything in the Post which fairly represents any silver man.

I have no personal animosity to Mr. Carlisle. I differ widely with him on the money question, and therefore am opposed to him for the presidential nomination, do not do abuse anybody, either privately or in my public utterances. My convictions have never wavered on the proposition that silver and gold should and will, when the people settle the question, constitute the standard or final redemption money of this country.

The removal to this city last week, of Dr. R. F. Eger, first assistant physician at the Western Asylum, has necessitated some temporary changes at that institution. The third assistant physician, Dr. Stanley, is now acting as first assistant, and Dr. Kortlander, the druggist, is filling Dr. Stanley's place. It is not known who will get Dr. Eger's place. Dr. Eger's retirement was entirely voluntary, as he had assurances that he would be allowed to serve out his term, a year longer. As previously mentioned he has located in this city.

The fight now for a candidate to suit our individual views is perfectly legitimate and proper. But as a Democrat loyal to the party, when the national Democratic convention fairly organized has spoken for the party, and made a nomination, I expect to stand by that nomination. And so should every true Democrat. Let us when the party speaks, sink individual opinions on special subjects, and unite to bring success to the ticket, and rely on good sound Democratic common sense to correct, whatever may be found to be wrong, in platform principles. Only in "union is there strength." It is a mighty poor Democrat that would not make a better president than a Republican.

Hastily and very truly,
J. D. CLARDY.

Names That are Doubles.

There are in Hopkinsville several gentlemen who are "two of a kind" so far as names go and the postmaster is often put to his wits ends to keep their mail from getting mixed. To begin with, there are two J. D. Russells in the city who are in no way related each other. One is Vice President of the Planters Bank and the other manager of the Telephone Exchange. The banker has an son of the same name, so in this case there are three residents of the city who are known by the name of J. D. Russell. Another pair of doubles are the Robt. S. Carters. One is the Episcopal Minister and the other lives on South Main. In this case one is known as "R. S. Carter" and the other as "R. S. Carter," and they manage to keep themselves pretty well identified.

A letter addressed to Walter Lee Whitesides was taken out of the post-office last week by the foreman of the Kentuckian office that was evidently not his. He knew of no other man of the same name, nor did anybody else in town, but Saturday a drummer had ordered his mail sent here to meet him on his arrival. There used to be two J. H. Andersons, a merchant and a railroad man, but the latter moved away a year or two ago.

Mr. J. M. Adams, the L. & N. agent, also has a "double," but he lives at Church Hill, a few miles from town. Of course there are many cases where father and son bear the same name, and many others where a white man and a negro have the same name, but the cases mentioned above are some where there is apparently no way to separate the identity of the parties without adding the man's business to his name in addressing mail.

There is also more or less confusion in cases where two or more parties bear the same name except as to the middle initial. Unless the full and correct name is given, the letter is in many cases apt to miscarry. It would be well enough to add that the editor of the Kentuckian has no copyright on his name except the middle initial. The rest of it is borne by two other Charles Meachams.

Gets Thirty-six Days.

Geo. Dixon, col., was tried Saturday for carrying a concealed deadly weapon and sentenced to the work house for 36 days. A razor was the weapon found in his jacket.

FRANKS OF COURSE.

THE REPUBLICAN DISTRICT CONVENTION YESTERDAY.

The Convention Had Done Nothing of Importance Late Yesterday Afternoon.

A large delegation of local Republicans went to Madisonville to attend the district convention to nominate a candidate for Congress. W. T. Fowler, Jas. F. Brown, J. M. Renshaw, V. M. Williamson, W. B. Pace, W. Summers, col., and Geo. Dabney, col., were among the number. Mr. Fowler and several others went Sunday night. The rest went yesterday.

The Congressional nomination was of course settled in advance. Christian, Webster, Hopkins and McLean were instructed for Franks with 96 votes. Henderson, Union and Hancock for Seabrook with 34 votes.

The only matters of importance to come up, the nomination of Franks being settled and conceded, were the election of two delegates, and one district elector and the instructions to the delegates. The real fight was between Bradley and McKinley. The counties of Davies, Henderson and Taylor were instructed for Bradley, Christian and Webster for McKinley and the rest uncommitted, but leaning to McKinley.

In the selection of delegates a hot fight was expected, with half a dozen candidates, among them Maj. S. R. Crambough, of this city.

JOHNSON A WINNER.

Additional Returns From the Democratic Primaries in Alabama.

Montgomery, Ala., April 12.—Additional returns received to-day from the Democratic State primaries held yesterday give Joseph F. Johnson, of Jefferson, the free silver candidate for the gubernatorial nomination 374 votes of the 504 in the State Convention. Returns from several counties are disputed, but Johnson is undoubtedly nominated by a two-thirds majority.

Many Populists voted for Johnson, on a promise to support the nominee in the general election, thereby reinforcing materially the Democratic party in this State.

Eloped On One Leg.

Gallatin, Tenn., April 12.—A romantic and novel marriage was performed here this afternoon by Squire J. B. Donelson. The contracting parties were Mr. W. J. Allen and Miss Dora Bray, and their home is at Hiseville, Washington county, Ky. The elopement was caused by parental objection. The main features which characterized this novel wedding are that the groom was about sixty years of age, with hoary locks and long magnificent gray beard, is totally blind and minus a leg, while his bride, who has not seen seventeen summers, is quite pretty and vivacious.

Killed His Wife.

Madisonville, Ky., April 12.—About 4 o'clock this morning a negro named Henry Edmunds, who had not been living with his wife for some time, slipped into her home, and after treating her in a terrible manner, shot her to death. The woman's sister who was visiting her, ran to her aid and Edmunds shot and dangerously wounded her. Edmunds made his escape, and has not been captured. Excitement here is at a high pitch among the colored population.

Arkansas Campaign.

Little Rock, Ark., April 12.—Col. Dan W. Jones, free silver candidate, seems to have the gubernatorial race by the tail with a down hill pull. County conventions and primaries held in different portions of the State during the past week indicate that his nomination is only a matter of time. Very few of the back counties have yet been heard from, but almost every case Jones delegations have been elected.

Fire at Princeton.

Princeton, Ky., April 12.—Fire at 1 o'clock this morning destroyed the planing mills and a large lot of lumber of Eugene Young. It was supposed to have originated from the furnaces. The loss is about \$16,000, with only \$2,000 insurance.

Drs. Blakey & Eger, insert their professional card, with office hours, in to-day's paper. Both of these gentlemen are too well known personally and professionally to need an introduction to the public. The new firm is a strong one and will at once command a large patronage.

THE FISCAL COURT.

Close of a Week's Session On Saturday Afternoon.

The Spring term of the County Fiscal Court closed Saturday evening, having been in session five days.

The important transactions up to Thursday afternoon were given in the last issue of the Kentuckian.

The most important action taken was the adoption of a resolution abolishing the fee system in operating the work house. Under this system the county attorney, county judge, magistrates and other court officers were in the habit of collecting from the county the costs and per diems worked out in the work house. This had greatly increased the work house expenses, in which the city is a one-fourth partner, and the matter has been creating a good deal of discussion for a year or more.

When it came to vote all the members acquiesced in it, those opposed to the resolution not voting. It is uncertain what the saving to the county will be.

The annual work house report showed a total of receipts from hands on the road and state sold of 1922.75. The total disbursements were for the year \$4880.

Officers cast paid out of work house funds from May 1st, 1895, to the 31st, 1896, \$150.89. Satter paid out of county funds from August 1st, 1895, to March 31st, 1896, \$473.73. Total for year

The city council through a committee asked that the city be allowed two votes in future elections of a work house keeper, her one-fourth interest entitling her to that representation.

Esq. Barker moved that the request be granted and the Democrats—Barker, Buckner, Fraser and Parker—voted for it and the Republicans—Long, Collins and Hanbery—and the Populist—Myers—voted no. Judge Breathitt broke the tie and voted no. This will probably lead to a dissolution of the partnership, the city retiring.

The county levy was laid at 50 cents 42 cents for general purposes and 8 cents for interest on the railroad bonds. The poll tax was fixed at \$1.50.

The annual reports of the Work House Committee and of the county attorney as commissioner for the county were received.

County Assessor J. B. Everett was allowed \$400 for taking the poll tax assessment for the county.

It was ordered that a committee consisting of Esq. Barker and Esq. Judge Breathitt be appointed to buy two more road graders for the county, making four. An appropriation of \$470 was made for the purpose.

The county judge's salary was again fixed at \$1000. A motion to put it to \$800, the salary in 1894, was lost.

The county attorney's salary was left at \$800 and a motion to restore it to the old figure of \$920 was lost.

Among the larger appropriations made were the following:

To operate road graders....	\$ 500
Miss Katie McDaniel, balance of salary for 1895.....	576.10
For poor house.....	3000.00
For paupers outside.....	2000.00
To pay road supervisors.....	1000.00
To pay for public offices.....	7000.00

The annual report of Miss Katie McDaniel, superintendent of schools, was presented to the court. It appears elsewhere.

Miss Katie McDaniel's salary as school superintendent was fixed at \$1,500 for 1896. Dr. J. B. Jackson, county physician, was put on the salary roll at \$300 and Clerk Prowse was allowed \$100 for keeping the records of the court for the year.

The Magistrates allowed themselves \$3 a day.

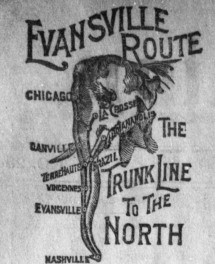

The body of a man was found floating in West Fork creek, near Kenney, early yesterday morning by Bill Johnson and Tandy Johnson, two negro fishermen. The corpse was lodged in some bushes and was taken out by the men and Esq. Barker notified. It was so discolored that the color of the dead man's face could not be seen. The coroner went down yesterday, but at four o'clock the inquest had not been held. The Kentuckian made an effort to get the results, but the scene was some distance from Kenney and nothing could be learned at the hour of going to press.

Even play was expected as the stream is not deep enough to drown people.

Ballard County Organized.

The Democratic Committee of Ballard county met last week and organized by electing Mr. Sam J. Moore as Chairman, and J. S. Grace, Secretary. Importance is attached to this from the fact that Mr. Moore is the ruling of the State Central Committee, becomes Chairman of the First Congressional District Committee and also Chairman of the Appellate District Committee of 18 counties. Mr. Moore is a stalwart free coinage Democrat.

The Missouri Democrats and the Kentucky Republicans held their State conventions to-morrow.

THE IDEAL HUSBAND.

He is the One with Whom a Woman is in Love.

Some time ago, the editor of an English magazine sent out a request to a number of eminent women to give their opinion as to the characteristics of an ideal husband.

The responses varied greatly, and were not altogether satisfactory to the public. "John Strange Winter" (Mrs. Stannard) thought it a very amusing notion that one should expect to find anything ideal in a man.

Mrs. Fenwick Miller was of a similar opinion, but even more flippant on the subject. Mrs. Boyd-Carpenter, the Lord Bishop of Epsom, said that an ideal husband without an ideal wife is impossible. Mrs. Crawford's idea is that an ideal husband would be an unmitigated bore.

The opinions of others were somewhat on the same line, but no one seems to have given an eminently satisfactory answer to the query.

However clever these women may be in portraying character, and certainly Mrs. Stannard's "Bore" is almost an ideal one, it goes without saying that their private and unofficial opinion does not impress one with the belief that they have any particular faith in ideal men. Such inquiries and discussions are supremely silly. Very few persons are willing to put themselves on record in print as to their personal opinion of some man with whom they may or may not be in love. Even though they did, the public would take it with grains of salt.

The ideal man cannot be described for the simple reason that though he were perfectly agreeable to the describer, he might not fill the bill at all to the mind of the reader. Every happy couple are ideal husband and wife to each other, and further than that it is out of the question to fix any given scale or catalogue of qualities or virtues.

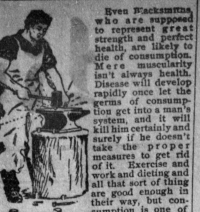

The world is full of men who are not ideal, and they find ample and appropriate companionship in women of the same sort. There are probably more ideal women than men, because society requires a higher standard for the one than for the other, though why this is, no one is able to give a good and satisfactory reason. One woman used to declare that she had an ideal husband, although her dear old friend knew that he periodically went on sprees. But he always indulged in these away from home, and neither his wife nor children ever saw him worse for drink. Aside from this infirmity, he probably was one of the noblest and best men that ever lived. Of course, as far as his wife knew, he was as nearly perfect as it is given to ordinary mortals to be. A man who knew him well, used to say that, conscious of this weakness, he turned all the forces of a strong character toward making himself everything that was good and honorable, and avoiding the little peccadilloes and irritating small faults that more than anything else tend to destroy all that is worthy and admirable in humanity.

After due consideration of all of these opinions it would appear that this is but one ideal man in the world, and that is the one with whom a woman is in love.—N. Y. Ledger.

WARM FEET.

They Are Essential to Health—Proper Covering for the Feet.

You will never be in good health and never do your best work if your feet are constantly cold, says the Vocalist. Grave diseases of the throat and lungs are caused by cold feet alone, and these troubles are always aggravated by a frigid condition of the lower extremities. If proper footwear does not give relief, consult a physician, for the chances are the system is "run down," and radical measures are necessary. In nine cases out of ten, however, the foot covers itself to blame, either because of its shape or its material. Save in warm weather, and for low-cut shoes, leather, as ordinarily prepared, has serious objections. It lacks two prime qualities—porosity and capacity for absorption—being in this respect too much like rubber. No foot can remain either comfortable or healthy if kept in a perpetual bath of its own emanations and excretions. Leather, especially that of the more porous varieties, may be tolerated for the outside, but for cold weather it should always be lined with woolen cloth, or, better, with wool felt. In fact, for all cold climates, and for winter wear in all climates where there is any winter, a footgear made from all-wool felt approaches the ideal. According to modern notions, any illness in one part of the body may be occasioned by some irritating cause far removed from the seat of the trouble. Just how this is cannot always be clearly explained, but that such connection does sometimes exist is beyond dispute. In the matter under discussion, if the nerves of the whole body are irritated by a tight shoe, or the extreme coldness of the extremities makes extra demand upon the blood supply, there is neither nerve force nor blood enough left for other functions.

Even fastidious who are supposed to represent great strength and perfect health, are likely to be overcome by mere muscularly Disease will develop rapidly once let the germ of consumption get into a man's system, and it will kill him certainly and surely if he does not take the proper measures to get rid of it. Exercise and work and dieting and all that sort of thing are good enough in their way, but consumption is one of the things that they won't cure. The habit of consumption is a living organism. It is indelible, but it is alive. The only way to get rid of it is to kill it. If it is not killed, it will develop and multiply. Germs are wonderfully prolific. In the quietest imaginable time, one becomes a thousand, and a thousand a million. Dr. Pierce's Golden Medical Discovery is a germ hunter and a germ killer. Wherever a disease germ lurks in the body, the "Discovery" will find it—and it will render it harmless. It doesn't make any difference what you call your disease, or what kind of a germ it is. All germs circulate in the blood. The "Golden Medical Discovery" purifies the blood—purges it of germs—enriches it with life-giving properties. It not only kills disease, but builds up health. It is a tonic, a nerve, or nerve-food, or invigorator and blood-purifier, all in one bottle.

If you want to know all of the facts about this wonderful remedy—if you want to know all about the human body, and human health, and sick headache, and how to get rid of it, send for Dr. Pierce's Common Sense Medical Adviser, a standard medical work of root pages, properly illustrated, which will be sent free on receipt of a one-cent stamp to cover cost of mailing only. This work is a complete family doctor book and should be in the hands of both young and old. The profits on the sale of 100,000 copies of it to be rendered possible this free edition. Address, World's Dispensary Medical Association, Buffalo, N. Y.

Dr. Matthew Henry Kollock,

Regular Graduate and Registered Physician. Formerly Assistant Surgeon in the U. S. Navy, afterwards Post Surgeon U. S. Army, and later surgeon British Marine Service, with two years' experience as Physician at Hot Springs, Ark., will welcome the sick and afflicted at his office, where consultation with one of the most successful doctors of the present age is cordially invited. All will receive kind and honorable treatment, and permanent cures guaranteed in every case undertaken.

Dr. Matthew Henry Kollock Treats Successfully All Chronic and Long Standing Diseases: Catarrh, Dyspepsia, Bronchitis, Asthma, treated by latest hospital methods.

Blood and Skin Disease. Scars, Pimples, Scrofula, Tumors, Rosacea, Chloro-syphilis, and all troubles arising from an impure state of the blood, promptly and completely eradicated forever from the system, restoring health and purity.

OFFICE 13 SOUTH MAIN STREET.

TUESDAY, APRIL 14th, 1896.

Gov. Boies, of Iowa, is a candidate for President and the Kentucky Democracy has some very high authority for taking the position that he is a better man for President than Mr. Carlisle. In 1892 Kentucky cost 18 votes for Cleveland, 6 for Carlisle and 2 for Boies, in the Chicago Convention, and Henry Watterson and John S. Rhea were the two Boies men. The chances are that John Rhea will vote the same way this year, but alas Marce Henri has gone to Yurup and can't stand by the man he preferred to Carlisle.

This is the regular year for the election of an appellate judge in another district, all of the judges being elected in the even years, and the claim that an election cannot be lawfully held in this district is merely a wish founded on one of those "technicalities" for which our friend Judge Landis is noted. The Judge thinks his appointment runs till 1897, but it is well to remember that

"When sent the trembling balance turns
The rarely well adjusted."

The goldbugs of New York are sending "plate matter" free of charge to all papers that will use it "to educate the people on the money question." The people are just now enjoying a little experimental and practical financial education of the gold bug breed, and it don't seem to cure 'em of the "mortgage habit" that has been almost epidemic.—Dover, Ky. News.

Both France and Germany are ready to return to bimetalism when ever the United States sets the example. Only last week the German Reichstag declared in favor of a double standard and call upon the German states to "do all in their power to secure by international convention a fixed proportion of value between silver and gold."

The gold standard policy of the latter day Democratic saints, known in common parlance as goldbugs, has not increased the value of taxable property in Kentucky. A fall of \$20,000,000 within a year does not look like prosperity had returned, and perched herself over the doorway of the old Kentucky home.—Crittenden Press.

The Courier-Journal's republishing of the sentiments of the Kentucky Democratic papers on Carlisle's candidacy in the last four days of last week showed 46 for and 28 against him. This does not show any over tremendous "enthusiasm" or much "State pride" so far.

The Democrats and Populists have united on Esq. R. T. Reader, Populist, to oppose Dr. James, the Republican candidate for Senator in the Greenville district. The vote in 1895 stood: Bradley, 5583; Hardin, 3721; Pettit, 1011. James has the best of it.

The Democrats of Kentucky are still wondering how the Courier-Journal ever happened to let Bill Goebel and Charlie Bronston speak in Louisville. It was a concession that has caused the wobbly old mono to be complimented on all sides for its fairness and disposition to harmonize.

The Times throws cold water on Gen. Castlemann's candidacy for district delegate. If the Fifth district doesn't know how to "push a good thing," perhaps the State convention will have to send Gen. Castlemann as a delegate-at-large, as it did four years ago.

Gov. John E. Jones, of Nevada, died Friday, aged 56 years and has been succeeded as Governor by Lieut. Gov. Reinhold Sadler. Gov. Jones was elected by the silver party and became Governor last year.

The Louisville papers are beginning to suffer from remorse. The Courier-Journal even has this to say: "It hasn't been six months since the Republicans carried this State and the people are already sick of the whole mob."

Oregon Democrats in State Convention declared for free silver in unmistakable terms.

Wall street has begun its campaign for the gold dollar standard. It is sending out ready prepared matter from 52 William street, New York, to gold bug papers without cost. They even go further than that. They will send you good-bug matter for one side of your paper and miscellaneous matter for the other side, without money and without price. This is the fruit of the manifesto issued by the gold sharks of Wall street a few weeks since, announcing that money would be needed to conduct but a gold campaign and it seems the money came without delay. This is no exaggeration, but gold facts that the bimetallic people must meet. The people can beat unholy money if they will, but it is no child's play. Let every friend of the money of the Constitution and every foe of the Wall street thieves stand without flinching, and they can beat anybody the pirates name. If this government is only for the bidding of bond buyers and the gold sharks, that prey upon the nation's vitality, the sooner the people know it the better, bitter though the fact be.—Bowling Green Courier.

This corrupt proposition is not only made to gold-bug papers, but to Democratic papers as well. They offer to furnish "insides," "broadsides" or "plate matter" free of charge and the shame of it is that a few Kentucky papers are accepting the bribe. We get it regularly, but prefer to pay our own plate bills.

Honest, sensible and popular Dr. Carlisle will be given a walk-over in the Second Congressional district. This may not leave a champagne taste in the mouths of some of the effervescent young men who were supposing the office had put on its war paint and was out on their trail, but it will strike the Democrats who do the voting as the sensible thing to do. The Doctor may be modest in pretensions to exalted statesmanship, but he has preserved his name untarnished and there is no smell of fire on his garments.—Bowling Green Courier.

Following are the Cuban resolutions adopted by both branches of Congress:

Resolved, That in the opinion of Congress, a condition of public war exists between the Government of Spain and the Government proclaimed, and for some time maintained, by force of arms by the people of Cuba, and that the United States of America should maintain a strict neutrality between the contending powers, according to each all the rights of belligerents in the ports and territory of the United States.

Resolved, That the friendly offices of the United States should be offered by the President for the recognition of the independence of Cuba.

The daily papers of Sunday were filled with the disgusting details of the "confession" of H. H. Holmes, who will be hanged at Philadelphia May 7. He claimed to have murdered 27 people and narrates at great length his various murders and other revolting crimes.

This from the Carroll News, published in Carlisle's own district: "Carroll county saved John G. Carlisle when Thoebe made a contest, but he will not get the support of Carroll in his race for President. It will be the same in Boone, Gallatin and Trimble."

It is now denied that Cleveland sent that "thin and courteous" message to Spain, but the correspondents still assert that it was sent.

Gov. Bradley has pardoned another brother in his A. P. A. lodge, a man named Harry Burnett, convicted of carrying a concealed deadly weapon.

Cullom has withdrawn from the race for President. It is coming down to a square contest between McKinley and Reed for the Republican nomination.

Why not run Harrison on the Dimmick rat ticket, since he has disregarded the Elder Weller's advice to his son.

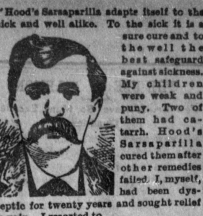

It is said Congress is preparing to adjourn in six weeks.

It is all one way in Missouri. Even in the great cities of St. Louis and Kansas City the silver men swept nearly every ward.

A Doubtful Platform.
(Bowling Green Courier.)

The boast that is made of John G. Carlisle being within himself a Democratic platform, is to the mind of the people very confusing. The Democracy do not know whether he stands with Wall street, where Mr. Cleveland planted him when he entered the Cabinet, or whether he stands where he did in Congress in 1878 when he was representing the Democracy of Kentucky. But that is for the reader to judge.

Here is what Mr. Carlisle said in 1878 before he attempted his colossal stride in 1896: "I shall not enter into an examination of the causes which have combined to depreciate the relative value of silver, and to appreciate the value of gold since 1873, but I am one of those who believe that they are transient and temporary in their nature, and that when they have passed away or have been removed by the separate or united actions of the nations most deeply interested in the subject, the old ratio of actual and relative value will be re-established on a firmer foundation than ever. I know that the world's stock of precious metals is none too large, and I see no reason to apprehend that it will ever become so. Mankind will be fortunate, indeed, if the annual production of gold and silver coin shall keep pace with the annual increase of population, commerce and industry. According to my view of the subject, the conspiracy which seems to have been formed here and in Europe to destroy, by legislation, and otherwise, from three-sevenths to one-half the metallic money of the world is the most gigantic crime of this or any other age. The consummation of such a scheme would ultimately entail more misery upon the human race than all the war, pestilence and famine that ever occurred in the history of the world. The absolute instantaneous destruction of half the movable property in the world, including houses, ships, railroads and all other appliances for carrying on commerce, while it would be felt more sensibly at the moment, would not produce anything like the prolonged distress and disorganization of society that must inevitably result from the permanent annihilation of one-half the metallic money of the world."

Maj. John S. Long returned from Madisonville yesterday.

Mrs. Card of Lexington, is visiting here this week.

Best wishes to the Kentuckians.

ELLIS.

COUNTY SUPERINTENDENT'S REPORT TO APRIL 9, 1896.

To the Christian County Court of Claims;

GENTLEMEN:—I, Katie McDaniel, County Superintendent of Christian county, beg leave to make to your honorable body the following annual report of the condition of your schools since April 3, 1895, the time of my last report.

There were reported to me by the trustees, 11,910 pupil children. During the month of May, I examined carefully every census report and found that there were 11,556 pupil children, the difference of 354 being due to the enrollment of persons over age, under age, and double listings. I found no evidence of any intended fraud, but think the mistakes were made through carelessness, and in some cases, ignorance of the real boundary lines. I sent in March of this year to each district, white and colored, a circular letter giving minute instructions in regard to taking the census. I have also tried to so adjust the boundaries that all double listing would be avoided. I trust with these precautions there will be very few changes to make in the reports this year. By correcting the last census I saved to the State and County \$397.55. The per capita being \$2.51 for the present, and I was paid by the State and County on the 11,556 pupils, \$29,933.24. I have paid to the various teachers upon the orders of trustees, \$29,535.53, leaving a balance on hand of \$1,042.71 not yet called for. There still remains due from the State a balance of \$3325.92, which is due on the whole, or credit, of the salary for the fifth month. This will not be paid, the Treasurer thinks, before July 1st.

There are a few of the schools still in session and four did not open until January. In more of the districts than usual a subscription school is now being taught, which is encouraging.

I held in August two institutes of five days each, one for the white and one for the colored teachers. For both of these, able instructors were secured and the attendance was excellent. My intention is to have again, but the best to instruct the Institutes that the teachers may thereby derive the greatest benefit from these annual meetings. I have received from both Institutes, \$159, and have paid for expenses \$127.10, leaving in my hands due \$31.80. (See itemized account in Record Book, pages 130 and 140.)

For the County Teachers' Library Fund I have received from the Institute Fund and balance from last year, \$40.10. I have also received for books and expenses, \$12.02, leaving the amount now to the credit of this fund \$52.12. (See itemized account in Record Book, pages 160 and 169.) This amount will be expended for new books as soon as selections can be made.

I have held ten examinations, of two days each for teacher's certificates—five for the white and five for the colored teachers. Sixty-four certificates were issued to white and fifty to colored teachers, and there were one hundred and twenty failures. I have also held two examinations for white and colored for graduation in the common schools. Diplomas were granted to five white graduates, one from No. 5 and four from Gordon's Field District. This was a young class and an unusually bright one as well. I hope to arouse greater interest in this subject on the part of pupils, teachers and parents, as it is of the greatest importance. From examination fees I have received \$298 and have paid my examiners, as the law directs: To C. H. Dietrich, \$83.50; to A. C. Kyndland, \$154.50. Total, \$258.00. (For itemized account, see Record Book, page 54.)

I have received from taxation of districts for building and repairing school houses and supplying apparatus, including balance from last year, \$2,753.30, and have paid out for the above purposes, \$2,022.93, and now have on hand to credit of said fund \$730.36 due the various districts. (See record book, pages 219-289 for whites, and 400-454 for the colored.)

New school houses have been built in six districts, 6 white and two colored. Others have been repaired and many have bought and improved furniture and apparatus. Several new houses will be built this spring. Our houses and furniture are gradually improving and we hope the day is not far distant when we can point with pride to a neat, comfortable, commodious, and well-equipped school house in every district in the county.

I have visited each one of your 143 schools once and many of them more than once. I have made during the year 165 visits to the schools. Several days were spent in each of the city schools, white and colored. I have found enrolled on the days of my visits to the various schools 6045, and 4152 present. I heard 825 recitations and made a great number of talks. For a more detailed statement see "Record of Visits."

I have held 9 educational meetings for the teachers. The attendance was good, the programs interesting and helpful, and the patrons as well as the teachers were much benefited thereby.

Last May, Reading Circle certificates were issued to all teachers who had completed the Course of Study and passed the required examinations in the State Teachers' Reading Circle. 41 white and 90 colored teachers—total 131—received certificates. We have a large circle this year. The Course of Study includes Spelling, History of Ky. and Boak's prehistory.

Nearly all of the teachers read sections of journals. In our library for white teachers we have 101 volumes and for colored teachers 144 volumes.

The attendance in many of our schools was not good this year. There were various causes for this. Sick-ness prevailed to an unusual extent all over the county. Some of the schools had to suspend temporarily on account of diphtheria and the attendance was not good afterwards.

In addition to sickness, many children both male and female were kept from school to assist in caring for and housing the unusually large to-bacco crop. In spite of so many ob-stacles, however, there was a com-plete good done by conscientious, faithful teachers. Of course in a district where the "teacher" is a more "time-keeper" little good is accomplished even under the most favorable cir-cumstances.

As you know we have now in Ken-tucky, strange it seems to us, a com-pulsory attendance law. While we may not have favored its passage at this time when other reforms seem to be pressing, yet it is, in my opinion, a law, all of us owe allegiance and a fair trial. I shall, for my part, inform the trustees in regard to its require-ments and try to see that it is en-forced in this county. The provisions of the bill are reasonable and not radi-cally, and I trust we may see from it many beneficial results. In some of our schools, however, I fear we may not have room sufficient to ac-commodate all of the children.

In conclusion, I will say that my wife and I have been deeply com-pensated for the improvement of our schools and teachers, and while I am not satisfied, but shall continue to strive for even better re-sults. I trust that this report may meet your approval and that you will deem my services worthy of the usual compensation.

Respectfully Submitted,
Katie McDaniel,
County Sup't.
Hopkinsville, Ky., April 8th, 1896.

Vitalia, double strength, for sale by druggists.

Demorest's Magazine comes to us in Easter dress, and with Easter pic-tures and poems, and a general "spring" character, makes one im-mediately feel in accord with the sea-son. The first article, "Flower Fetes and Pageants," introduces us to all the lands where Flora is fêted during the months of her reign, and pictori-ally one becomes intimately acquaint-ed with a favorite spot in her king-dom, Southern California. "Bernadine the Beautiful," transports one to the land of the Easter lily, where meet your pattern illustrations in number of the Magazine published during the last twelve months, at the uniform price of four cents each; and frequent-ly over thirty patterns are illustrated in one number, thus affording an al-most unlimited variety to select from. Demorest's is published for \$2 a year, by The Patterson Publishing Compa-ny, 110 Fifth Avenue, New York.

Everyone who will take the trouble to cut out this notice and forward it, with ten cents, to the address below, will receive a sample copy of Demorest's Magazine, containing a Pattern Order which entitles the holder to any pattern illustrated in any number of the Magazine published during the last twelve months, at the uniform price of four cents each; and frequent-ly over thirty patterns are illustrated in one number, thus affording an al-most unlimited variety to select from. Demorest's is published for \$2 a year, by The Patterson Publishing Compa-ny, 110 Fifth Avenue, New York.

Miners go on a Strike.
The coal miners at Deanefield, in Daviess county, are on a strike be-cause of the summer scale that has been announced to take effect in a few days. The operators of the mines will not pay what the miners ask and the men claim that they will not, un-der any circumstances, work for less than a winter scale. It is likely that new men will be supplied to take the place of the regular hands.

CLEVER RIDING.

Training of Men and Horses Shown in Cavalry Drill.

A hundred or more persons went over to Fort Myer the other afternoon to witness the first exhibition drill of the season by the two cavalry troops of the Six United States. The exhibition was given in the large riding hall, where all were out of the biting wind that swept down the parade.

There is probably no other set of officers and men in the army who can give such a display of horsemanship as Troops G and A of the Sixth. The drill given by them tends more to show to what a high degree of efficiency men and horses can be trained than to display knowledge of cavalry movements. At the bottom of the whole drill is the aim of every true cavalry officer to make his men so familiar with the horses that they can do almost anything with or on them. The officers argue that a cavalryman must be able to ride a horse under any and all conditions; know how to fall off without being injured, ride without stirrups or saddle, and also standing in the stirrups, and have full use of the arms for fighting.

While every troop in the army has to undergo what the soldiers call "bull ring" drill, there is none that has so fully developed the idea as these two troops at Fort Myer. This is in a great measure due to the untiring efforts of the officers—among them Lieut. Short, who is an acknowledged premier in the saddle—and the esprit du corps of the men, which in G and A exists to a remarkable degree. The men in these troops always try to outdo each other.

Troop G was the first to come out, under command of Capt. West, assisted by First Lieut. Gallagher and Second Lieut. Stout. The men gave an excellent exhibition of fancy riding. Cossack riding was first given, and in this the men, with stirrups crossed, stood up and rode about the hall in a fearless manner. They rode even better than the Cossacks who were with Buffalo Bill's show. To show the training of the horses, they made passages, side movements with ease, and other difficult feats to teach a horse. Other movements given by the troop were loudly applauded.

Troop A, Capt. Kendall, Lieuts. Short and White, closed the drill. After going through similar movements the men gave a very interesting exhibition of hurdle jumping and using horses for hurdles. In the latter some of the horses were a little ill-tempered, but were quickly subdued.

The most serviceable thing of the whole exhibition was the use of horses for breastworks. The horses are taught to lie down by the use of straps, coming from the right side of the foreleg over the shoulder, while the left leg is off the ground and hobbled. The soldier pulls on the shoulder straps, shoves against the left shoulder, and down goes the horse. After the time the only thing necessary is to pick up the left front leg and shove at the shoulder, while some of the more intelligent animals need only a shove. The use of horses as breastworks has long been in vogue on the plains during Indian fights, but the horses had first to be shot. The training of recent years has done away with this necessity.

Since last season the men and horses at Fort Myer have greatly improved and give a much finer exhibition. They do more feats in fancy riding, and a great many more men have developed sufficient skill to accomplish those which only a few did last year.—Washington Post.

Remarkable Twins.

Tillie and Lizzie, of Philadelphia, 19 years old, are remarkable twins, if the stories told of them be true. When one suffers pain, the other feels it also. Either sister can find the other in a crowd of any size "without hunting," as they express it. The resemblance between the two girls is remarkable. Both weigh exactly the same. Their recollections of past events are precisely the same. Neither one can recall a single occurrence that did not happen in the presence of both. It takes the minds of both to retain a lasting recollection of any happening, but when the fact is once impressed upon the minds of both, neither one can forget its least important features.

What They Said.

The late Prof. Blackie was once standing in front of the fire at the lodge of Balliol, and shouting out, with a roar, at the enormous pile of white hair: "I should like to know what you Oxford fellows say of me behind my back!" After a moment's pause, Jowett, the master of Balliol, replied mildly: "We don't mention you at all."

Big Diamond.

A 234-carat diamond, the finest ever found in Africa, was discovered at Jagersfontein, in the Transvaal, on the day after Christmas. When cut it is expected that it will be worth \$1,500,000.

BEEVITIES OF FUN.

—Trying to be witty is like trying to be pretty.—Flegende Bhetter.

—"My fuel gas bill amounted to \$20 this month," said Hiland. "You must have money to burn," replied Halket.—Pittsburgh Chronicle-Telegraph.

—"Ringray"—"Your sister expects me to dinner, doesn't she, Willie?" Willie—"Oh, yes. She said she didn't know but what you might stay to breakfast."—Life.

—"Doctor"—"Didn't I tell you not to tax your brain?" Literary Patient—"I'm hot. I'm only writing for one of the high-class magazines."—Philadelphia Record.

—"Teacher"—"Oiga, translate the following sentence into French: 'My cousin Arthur is greatly attached to me.'" Oiga (quickly)—"His name is Max."—Flegende Bhetter.

—"Mamma, I really cannot see why you call my Reginald 'the lodge'; indeed I cannot." "I call him that because he is such a poor excuse for a man."—Indianapolis Journal.

—"Will some one tell 'A Curious Reader' why the pictures of horseless carriages show that many of these new vehicles are provided with whip sockets?"—Boston Journal.

—"Master"—"How was this vase smashed, Mary?" Mary—"If you please, sir, it tumbled down and broke itself." Master—"Humph! The automatic brake again!"—Tit-Bits.

—"I think," said the weather prophet thoughtfully, "that we are to have a little typical Chicago weather." "What kind is that?" "All kinds at once," replied the weather prophet.—Chicago Evening Post.

—"Teacher"—"George, what excuse have you for being late?" George—"Only a far-fetched one." Teacher—"What do you mean?" George—"The conductor of the car carried me several blocks past the school."—Harper's Round Table.

—"He Finds Out"—"What questions do the ignoramuses ask you the oftenest?" inquired the lounge, putting his feet up on the table of the answers-to-queries man. "That one," severely responded the information editor.—Chicago Tribune.

—"Mother"—"Now, Willie, you've been eating mince pies till you've made yourself ill. I shall have to send for the doctor." Willie—"I say, if you are sending for the doctor, I have another mince pie for you. It won't make any difference, you know."—Moonshine.

CHINESE EDITOR IN CHINA.

First Native Editorial Staff Begins Turning Out a Newspaper.

Information received in Washington is to the effect that a newspaper has been established at Peking by Chinamen and printed in Chinese language under the patronage of some of the most powerful princes of the court.

It is called the Wan-Kuo-Kung-Pao, or Universal Intelligence, and will be edited by a young graduate of Hamelin college, of which Dr. Martin, an American missionary, has been president for years.

This audacious and progressive person is Kang Chang-Su, a native of Canton, who, only a few years ago, was in deep distress because of some rather heretical comments he published upon the classics of Confucius.

Associated with him in the enterprise are such men as Yuan Shihkai, ex-minister to Corea; a secretary of the grand council, a grand nephew of the imperial tutor, Weng, a son of the late Marquis Teng, a nephew of Prince Li, and some 15 others of high literary rank or of great official families.

These gentlemen have formed a club known as the Universal Intelligence association, which assumes the expense of publication, and will contribute to the periodical, which will be issued twice a month. Chang Chih Tung, the viceroy of Nankin, has subscribed \$5,000 toward the capital; an uncle of the emperor has given a building, rent free, and the president of the board of revenue has pledged a subsidy from the government.

There are now only six newspapers printed in the Chinese language—two at Canton, one at Shanghai, one at Hankow, one at Tientsin, all owned and published by foreigners, and the venerable Peking Gazette, which is the oldest journal in the world, and for 800 years has been issued regularly at the capital to make known the imperial edicts and other official information.

The proposed newspaper, which is evidently issued with the consent of the government, is the most radical innovation made in China for many years.—N. Y. Sun.

Object the Same.

Lady Henry Somerset once attempted to form a league for the suppression of foot-binding in China. It failed lamentably. One Chinese maiden is said to have put the case to her ladyship in these words: "We squeaky foot! You squeaky waist! Same object—both get our husband."—N. Y. World.

"A very smooth article."

Battle Ax PLUG

Don't compare "Battle Ax" with low grade tobaccos—compare "Battle Ax" with the best on the market, and you will find you get for 5 cents almost as much "Battle Ax" as you do of other high grade brands for 10 cents.

Dr. Kottick in Nashville.

Dr. Kottick, a graduate and Registered Physician, formerly Assistant Surgeon U. S. Navy, afterward Surgeon U. S. Army, and later Surgeon British Marine Service, with two years experience as a Surgeon in the U. S. Army, and as a Surgeon in the British Marine Service, is now in Nashville, Tenn., at the corner of Main and Second streets, in the building known as the "Kottick Building." He is noted as the discoverer of the secret of the cure of the disease known as the "Kottick Disease," which is a disease of the face and throat, and is a very dangerous disease, and has made many cures given up by other doctors. He is now in Nashville, Tenn., at the corner of Main and Second streets, in the building known as the "Kottick Building."

Farmers are busy now.

A Sound Liver Makes a Well Man.

Are you bilious, constipated or troubled with jaundice, sick headache, bad taste in mouth, foul breath, coated tongue, dyspepsia, indigestion, hot dry skin, pain in back and between the shoulders, chills and fever, etc. If you have any of these symptoms, your liver is out of order, and your blood is slowly being poisoned, because your blood does not act properly. Herbine will cure any disorder of the liver, stomach or bowels. It has no equal as a liver medicine. Price 75 cents. A free trial bottle at K. C. Hardwick's drug store.

Lagrange is to have a new Masonic Hall.

DISEASES OF THE SKIN.

The itching and smarting incident to eczema, tinea, salt-rheum, and other diseases of the skin is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites, and eczema of the eyes. For sale by druggists at 25 cents per box.

Try Dr. Cady's Condition Powders, they are just what a horse needs when in bad condition. Tonic, blood purifier and vermifuge. Sold by R. C. Hardwick, druggist.

Greensburg may have a town hall right soon.

When Baby was sick, we gave her Cuticura. When she was a child, she cried for Cuticura. When she became ill, she clung to Cuticura. When she had children, she gave them Cuticura.

Mrs. J. T. Fox was burned to death near Elkton.

During the winter of 1893, F. M. Martin, of Long Beach, West Va., contracted a severe cold which left him with a cough. In speaking of how he cured it he says: "I used several kinds of cough syrups, but found no relief. I bought a bottle of Chamberlain's Cough Remedy, which relieved me almost instantly, and in a short time brought about a complete cure." When troubled with a cough or cold use this remedy and you will not find it necessary to try several kinds before you get relief. It has been in the market for over twenty years and constantly grows in favor and popularity. For sale at 25 and 50 cents per bottle by R. C. Hardwick, druggist.

Adair Circuit Court is in session with a large docket.

An Affidavit.

This is to certify that on May 11th I walked to Melick's drug store on a pair of crutches and bought a bottle of Chamberlain's Pain Balm for inflammatory rheumatism which had crippled me up. After using three bottles I am completely cured. I can cheerfully recommend it.—Charles H. Wetzel, Sunbury, Pa.

Sworn and subscribed to before me on August 10, 1894.—Walter Shipman, J. P. For sale at 50 cents per bottle by R. C. Hardwick, druggist.

A brick-making establishment is talked of at Vanceburg.

NOTICE.

I WANT every man and woman in the United States interested in the Optum and Family Tablets to have one of my books on these subjects. Address R. W. Motley, Atlanta, Ga., 100-30, and one will be sent you free.

The farmers are behind with their work all over the State.

What a Quotient Insurance Man Says. H. M. Blossom, senior member of H. M. Blossom & Co., 217 N. 3d St., St. Louis, Mo., writes: "I had been left with a very distressing cough, the result of influenza, which nothing seemed to relieve, until I took Ballard's Horehound Syrup. One bottle completely cured me. I sent one bottle to my sister, who had a severe cough, and she experienced immediate relief. I always recommend this syrup to my friends."

John Crumston, 908 Hampshire St., Quincy, Ill., writes: "I have found Ballard's Horehound Syrup superior to any other cough medicine I have ever known. It never disappoints. Price 50c. For sale by R. C. Hardwick, druggist."

The Morehead Leader editor says he cannot write all the matter that gets in his paper and then set the type. He has adopted two sheets of patent to oblige his trouble.

To those living in malarial districts Tutt's Pills are indispensable, they keep the system in perfect order and are an absolute cure for sick headache, indigestion, malaria, torpid liver, constipation and all bilious diseases.

Tutt's Liver Pills

The Havesville Plaindealer's new dress makes that veteran look quite attractive indeed.

David Nunley's house at Hecla burned, with \$800 in silver in the living room.

Hugh Conners was held up, under \$1,000 bond one day this week at Lexington, for horse stealing.

Robert Baker, the well-known turfman of Lexington, will be a candidate for Assessor.

The Springfield News-Leader will issue a big industrial edition in a short time.

Candidates' announcements are making the rural publishers extremely happy these days.

Col. Robert Frey is once more writing the history of the Daviess county pioneers for the Owensboro Inquirer.

Centuries ago, people used to fear what they called the pestilence, "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is due to it. It is merely that simple, common thing constipation. It makes people listless, causes dizziness, headache, loss of appetite, loss of sleep, and all the other ailments of the system. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and a mild cathartic. Once used always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

The old fruit raisers say blackberries will be very scarce this year.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This is the best medicine in the world for bowel complaints. It acts quickly and can always be depended upon. When reduced with water it is pleasant to take. Try it and like many other you will recommend it to your friends. For sale at 25 and 50 cents per bottle by R. C. Hardwick, druggist.

Christian county Populists have endorsed C. D. Bell for delegate.

Impoverished blood's Sarsaparilla purifies, enriches and vitalizes the blood and gives vigor and vitality.

The Fourth district Republicans say they will instruct for Bradley.

Ballard's Snow Liniment.

This Liniment is different in composition from any other liniment on the market. It is a scientific discovery, which results in it being the most penetrating Liniment ever known. There are numerous white imitations, which may be recommended because they pay the seller a greater profit. Beware of these and demand Ballard's Snow Liniment. It positively cures rheumatism, neuralgia, sprains, bruises, wounds, cuts, scalds, and inflammatory rheumatism, burns, scalds, sore feet, contracted muscles, stiff joints, old sores, pain in back, barbed wire cuts, sore chest or throat, and is especially beneficial in paralysis. For sale by R. C. Hardwick, druggist.

Lexington hopes to get the next meeting of the State Medical Veterans.

Those who are troubled with rheumatism should try a few applications of Chamberlain's Pain Balm, rubbing the parts vigorously at each application. If that does not bring relief dampen a piece of flannel with Pain Balm and bind it over the seat of pain and prompt relief will sure follow. For sale by R. C. Hardwick, druggist.

A man at Hazel Green thinks the Swift silver mine is located near that town.

Tobacco Growers should write B. W. Wrenn, P. T. M., Plant System, Savannah, Ga., for copy of Tobacco Laws in Florida on Line of Plant System, a valuable handbook free.

Logan county instructed delegates for McKinley and Dr. Hunter for delegate.

Everybody that goes to Florida will be interested in the book of Bill Arr, the noted Southern humorist, "Leisure Hours in Florida Charmingly written. Write B. W. Wrenn, P. T. M., Plant System, Savannah, Ga.

NOT A SAFE PLACE.

He Could Not Afford to Take Any Chances.

The young man who had answered the advertisement surveyed the room critically.

"It is quite satisfactory," he said at last.

The boardinghouse keeper gave a sigh of relief.

"When shall we expect you?" she asked.

"Not so fast, please," returned the young man. "There are some other details to be settled that are even more important than the location of the room."

"I think you will be satisfied with the table, sir," suggested the landlady.

"I don't doubt it at all," he answered.

"And the price is—"

"Quite satisfactory," he interrupted. "But I am a little particular in regard to the people whom I shall be obliged to meet. In fact, it is solely because of that that I am leaving my present quarters."

"Only those whose characters are above reproach are—"

"Of course, of course," he interrupted again. "May I ask if you have any ladies among your boarders?"

"Certainly. Several of the gentlemen are married, and their wives are naturally with them."

"Oh, that's all right. But how about unmarried ladies?"

"There are two."

"Any widows?"

"One."

He picked up his hat and started for the door.

"But, sir, they are—"

"Madam," he replied, "I have no doubt at all that they are very estimable ladies, and I should be very glad to make their acquaintance any time except during leap year. But I am taking no chances now."—Chicago Evening Post.

CLAIMS VALUABLE BONDS.

Minnesota State Expects \$25,000,000 from the Government.

C. I. Boardman, a former resident of Winona, Minn., is reported to have come into a fortune of \$25,000,000 at Lorain, O., his present home. Thirty years ago Charles Durkee was territorial governor of Utah, and \$60,000,000 worth of Union Pacific bonds were assigned to him and were in his possession at his death. These bonds are now in the United States treasury and for years have been claimed and owners unknown. Unpaid interest swells their value to \$100,000,000. Boardman and three others, it is said, have now proved their claim as sole heirs, and each will receive a quarter of the amount.

American Files in England.

A retail hardware dealer in England says that 80 percent of the files he sells come not from Sheffield, but from America, and he explains the anomaly in the Ironmonger. The American manufacturers, it seems, keep large stocks in London and fill orders with great promptness. The American price lists give exact information regarding sizes and grades and promise delivery in three days from London. A Sheffield price list requires prolonged study to comprehend it, and when an order is sent to Sheffield, it may not be filled for four weeks, or even eight weeks. This tardiness in filling orders, the writer says, has been a matter of worse experience for the past 20 years.

Children of the Revolution.

There are now living in New London, Conn., three children of a general in the revolutionary war, and these are said to be only one other city in the United States that boasts such a distinction. The New Londoners are William H. Burbeck, his brother, John C. Burbeck, and his sister, Charlotte A. Burbeck. Their father was at the battles of the Brandywine, Germantown and Monmouth, and at Valley Forge, and afterward served under Gen. Wayne in the campaigns against the Indians.

Early to Rise.

Early rising is said to be popular among the women of the royal families of Europe. Among some notable examples are cited the queen regent of Spain, who begins her day's work at seven o'clock sharp, and the Empress Elizabeth of Austria, who rises at four o'clock every morning, winter and summer, and usually takes a long walk immediately afterwards.

Frock Coats.

The frock coat is unquestionably an English invention and its earliest appearance is in 1540, in the reign of Henry VIII. It is described as "a coat of velvet, somewhat shaped like a frock, embroidered all over with flatted gold of damasks."

The Sweet Thing.

Minnie—I never noticed before that this mirror had a wrinkle in it. Mamie—I thought you were able to see wrinkles in any mirror you looked at.—London Daily Journal.
